PRICE LIST

Eko drawer fronts

VIEWED FROM ABOVE

Eko drawer fronts are crafted from 13mm thick solid oak and are used with the oak veneered Eko drawers to make inner drawers.

- Elegant handle cut-out ensures an attractive yet practical drawer.
- Three heights carefully selected to suit Eko drawer heights.
- Drawer front to be positioned 15mm below drawer to visually hide the runner.
- Widths designed to suit standard inner carcasses when fitted within main carcasses with 32mm spacers for door/hinge clearance.
- Made from edge-glued continuous-stave material for stability.
- Two-coat clear lacquer finish to approximately 20% sheen.

215mm drawer front fitted to 196mm LF Eko drawer shown from the rear.
